### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nanae Terazaki, Reg. No. L0304 on 3/12/07.

2. Claim 41, line 9, change "a vent disposed on an end of a top surface" to --an outlet vent disposed on an end of a first portion of a top surface--.
3. Claim 41, line 13, change "vent" to --outlet vent--.
4. Claim 41, lines 13-14, delete ", wherein the vent is an outlet vent disposed on a first portion of the top surface of the case".

### ***Drawings***

5. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the upward flange (claim 43), downward flange (claim 44) and the screen (claim 45) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.
6. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure

is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

#### **REASONS FOR ALLOWANCE**

7. The claims 6, 8-10, 12-14, 16, 23, 34-36, 39 and 41-46 are allowable over the prior art of record for at least the reason that the prior art fails to teach or suggest a structure as in claim 41, comprising a board, an integrated circuit, a case, an outlet vent disposed on an end of a first portion of a top surface of the case, a jet actuator, an inlet vent disposed on the end of a second portion of the top surface of the case and at least one partition disposed inside the case to provide a plurality of air flow chambers. The aforementioned limitations in combination with all remaining limitations of the respective claims are believed to render said independent claims 41 and all claims dependent therefrom patentable over art of record.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2835

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

9. None of the cited references, either taken alone or in combination is believed to render the present invention unpatentable as claimed.
